

Description:

The PEC Series Pipeline Equipment Cabinet is the ideal solution for enclosure of VRG Controls products. The PEC provides cost-effective shelter and security in extreme weather conditions. The Pipeline Equipment Cabinet is an ideal companion for VRG Below Ground PRCV Control Valves, Instrumentation Stand Assemblies, SGC Supply Gas Columns and countless other applications. The PEC minimizes heat loss and provides additional noise attenuation for Below Ground PRCV's. The PEC is available with a number of key accessories including insulation for improved heat retention.

Common Applications:

- VRG Below Ground PRCV Pipeline Control Valve Topworks
- SGC Supply Gas Columns
- VRG Control Instrumentation Stand Assemblies
- Countless Other Pipeline Shelter Applications

Features:

- Rugged, Lightweight Fiberglass Design Ideal for Natural Gas Industry Applications
- Heat Retention for Heated Control Instrumentation Applications
- Additional Noise Attenuation for Below Ground PRCV Assemblies
- Easy Four (4) Bolt Internally Secure Mounting Flange
- Lift-Off-Lid Feature Allows 360° Access to Equipment
- Hinged-Lid Feature Allows Quick Access to Equipment
- Locking Hardware for Security Standard
- Seamless Integration Guaranteed Fit with VRG Solutions
- Industry Leading 25 Year Limited Warranty

Specifications:

Model: PEC1-3PCH-WH-XX

Description: 3-Piece Fiberglass Construction, Hinged Top Equipment Cabinet

Overall Dimensions: 46 in (W) x 36 in (D) x 61 in (H)

Hardware: Gas Spring Assist Door Struts (2), SS w/ Zinc Finish Hardware, Lifting Handles, Lid Lift Clasps (4), Continuous SS Top Hinge, 3 in Black ABS Vent

Locking: 304SS Padlock Hasp to Accommodate 1/8 in DIA Padlock Bolt

Mounting: Secure Internal Bolting Flange with Pre-Drilled Mount Holes (4)

Weight: 85 Lbs (39 kg)

Color: BRILLIANT WHITE (STANDARD), Other Colors MARINE GRAY, DESERT TAN, SEA FOAM GREEN

Warranty: 25 Year Limited Warranty

Available Accessories:

- Thermal and Acoustic Insulation
- Custom Electrical Configurations
- Floating PEC Mount Brackets for Direct Mount to Below Ground PRCV Assemblies
- Height Extension Module for Increased Interior Height Clearance
- Alternate Colors

Figure 1.0 - Standard Features:

- 1 – Rugged, Lightweight Fiberglass Construction
- 2 – 3-Piece Design Allows Maximum Accessibility
- 3 – Gas Spring Assist Struts for Safety and Ergonomics
- 4 – 3.0 in Louvered Screened Vent Standard
- 5 – Locking Hardware for Security
- 6- Convenient Door Handles
